EXPERIENCE

Project ManagerMay 2022 – Present

Great Paragon Healthcare
Chicago, IL

- Built a full-stack employee and client management system using Next.js and Supabase with a responsive UI using Tailwind CSS and Shadcn UI, improving onboarding speed by 50%
- Led end-to-end project planning with Jira, defining timelines, milestones, and deliverables
- Spearheaded a HIPAA-compliance audit readiness initiative across all branches, preparing all departments for random state surveys, achieving zero audit deficiencies, and securing the Homemaker division's license following a probationary review
- Procured and deployed 50 iPads for home healthcare division with HIPAA-compliant integrations

IT ManagerJune 2019 – April 2022

Obaseki and Associates
Chicago, IL

- Deployed a centralized local server to host Drake Accounting software and client data, connected via ethernet cable to office computers and backed up to a secure hard drive, preserving over 30 years of client data
- Managed integration of Kaspersky security solutions, achieving a 100% success rate in preventing data breaches across all systems
- Provided comprehensive technical support by resolving printer issues, scanner configuration, network outages, and regular server maintenance to ensure minimal operational downtime

PROJECTS

Project Showcase WebsiteApril 2025

Inflato 3D

- Built a responsive website using React, TypeScript, Vite, and Tailwind CSS
- Integrated interactive 3D model viewing of inflatable products using Three.js
- Developed a CMS with Supabase for secure content management
- Created accessible UI components with shadcn-ui and Radix UI

Employee PortalJanuary 2023 - March 2023

Great Paragon Healthcare

- Architected a comprehensive employee portal with Next.js, Supabase, and Tailwind CSS
- Implemented dynamic employee listing with advanced filtering options
- Added features for employee registration and document uploads
- Integrated automated alerts for document expiration, ensuring compliance
- Leveraged real-time database features for seamless data synchronization
- Designed a responsive UI for optimal experience across devices
